Mr. Tucker,

OIP was copied on the email and revised Notice to Requester that the Department of Public Works recently sent you, which attached several of the records you had requested, answered the questions you had asked, and explained that the agency did not maintain a separate listing of penalties or fines. It appears that what they have sent fully responds to your request and doesn't leave any remaining denial of access for OIP to make a determination on.

Please reply to this email to either confirm that the agency's response has resolved the denial of access you appealed to OIP or, if you believe there is still a denial of access to be resolved, please explain what the remaining issue is and why you believe the agency's response did not resolve it. If I haven't heard from you after 20 business days, I will assume there is no remaining issue to be resolved and will close this file.

Aloha,
Jennifer Brooks
