My name is Devin Bohannon, August 11th of 2012 I was assaulted by [REDACTED] and on August 17th I made a report with the Honolulu police department. I sent in a written request to the Honolulu Records Department about two weeks ago. Last Thursday I received an envelope containing all documents related to the police report I filed in 2012. The documents are heavily redacted without explanation. I called the same records department and inquired about a possible reason and was referred to google Hawaii Statute Chapter 92-F, uniform practices act. She would not simply give me any number of reasons why redaction would take place. I googled it and had a difficult time finding anything that pertains to this situation. I contacted your office for information about possible reasons. Attached are the documents I received from the Record Department. This is the best email address to reach me at. Also, my phone number is [REDACTED] and o can be reached at any time by either telephone or email. I would like to know why the records have been redacted since I am the victim and the generator of the police report. I appreciate your assistance.
